## HONEST WORDS FROM 16,000 PEOPLE: YOUR PRELIMINARY SELECTION

This page is not a cold Yes/No checklist, but rather like sharing intelligence with an old friend.

### Pitfall Intelligence:

"I posted a survey on Reddit with over 16.4k views. Do you know what everyone is most afraid of receiving? It's '**clutter**'. Often, physical objects we find exquisite become a burden for the recipient when moving house."

### My Suggestion:

If you are worried that a physical gift will take up space, or are unsure if they have room for it, please consider options with "**High Emotional Density, Zero Physical Volume.**" For example, customized virtual gifts are an excellent choice.

### [ Interaction Area ] Check his/her current concerns:

- Renting, moves frequently.
- Desktop is already very crowded.
- Values emotional value more than material possession.
- Other concerns: \_\_\_\_\_

→ If any item is checked, please be sure to check the "Lightweight" solutions on Page 3.

# [Extension Canvas] From Clues to "Lightweight" Solutions

TRANSFORMING PHYSICAL IDEAS INTO HIGH EMOTIONAL VALUE

This table guides you to convert physical object plans into virtual customizations that offer higher emotional value without taking up space.

Observed Clues	Preliminary Physical Idea	Advanced: Virtual/Custom Alternative (Space-saving)
High pressure from changing jobs	Massager (Might gather dust)	Custom stress-relief song / Meditation App Annual Subscription
Nostalgic for old photos	Large Photo Frame (No wall space)	Professional photo editing + Dynamic photo video / Custom illustration avatar

**Reminder:** A virtual personalized custom gift is not mandatory. This is merely a sincere suggestion based on my research. If your gift won't take up too much space or your friend won't be troubled by it, the selection criteria here can absolutely be filled with other physical gifts!
